## LINING OUT STOCK

We feel that the best is none too good. The stock that we have to offer is just such material as we would expect if we were buying it. Our growing season has been almost perfect and these liners have been grown with the aid of irrigation which we feel makes a hardier plant.

**EXPLANATION OF GRADES:** We are listing our liners in grades by the number of years they have been growing under the lath screens; for example, 1yr. means 1 year in outside beds. 2 yr. would be 2 years outside, etc.
